EDUCATION

Associate of Applied Science in Cloud Computing

2026

Lone Star College

Conroe, TX, USA

- Developing foundational expertise in cloud infrastructure, systems integration, security fundamentals, and emerging technologies to support scalable, technology-enabled learning environments.

Master of Education in Curriculum & Instruction

2021

Sam Houston State University

Huntsville, TX, USA

- Advanced preparation in instructional design, curriculum development, assessment, learning theory, and data-informed instructional improvement for diverse and adult learners.

Bachelor of Science in Interdisciplinary Studies

2019

Sam Houston State University

Huntsville, TX, USA

- Broad academic foundation integrating pedagogy, content knowledge, and educational technology to support effective teaching and learning across disciplines.
-

EXPERIENCE

Operations Specialist

Virtual/Remote

Stride: K12 Tutoring

- Supported operational execution of virtual instructional programs, ensuring alignment between instructional design, technology platforms, and learner engagement goals.
- Coordinated workflows, documentation, and digital processes to improve efficiency, scalability, and consistency across instructional initiatives.
- Collaborated cross-functionally with educators, program managers, and technical teams to resolve platform and instructional delivery challenges.
- Analyzed operational and engagement data to identify gaps, recommend improvements, and enhance program effectiveness.

Community Engagement Specialist

Virtual/Remote

Stride: Lone Star Online Academy

- Designed and facilitated virtual engagement initiatives to improve learner participation, retention, and community connection in asynchronous and synchronous environments.
 - Provided training and guidance to families and stakeholders on various digital platforms.
 - Leveraged analytics and feedback data to evaluate engagement strategies and recommend evidence-based improvements.
 - Served as a liaison between instructional staff, administration, and families to ensure clear communication and consistent learner support.
-

Project Manager

Virtual/Remote

Stellar Virtual

- Led moderately complex virtual education projects from planning through implementation, managing timelines, deliverables, and stakeholder communication.
- Coordinated with SMEs, instructional staff, and technical teams to develop and deploy digital learning resources and program materials.
- Created documentation, templates, and workflows to support consistent instructional design and technology integration.
- Monitored project outcomes and applied continuous improvement strategies based on data and stakeholder feedback.

Virtual Teacher - Founding Instructor

Conroe, TX

Conroe ISD

- Designed and launched online courses as a founding instructor, establishing digital course structures, instructional templates, and engagement norms.
 - Developed multimedia-rich, standards-aligned instructional content using learning technologies to support asynchronous and synchronous instruction.
 - Implemented accessibility and universal design principles to support diverse learners in a virtual environment.
 - Analyzed learner performance data to inform instructional decisions and improve course design.
-

Interventionist

Virtual/Remote

Stride: Texas Online Preparatory School

- Delivered targeted, data-driven instructional interventions for students in a fully virtual learning environment.
 - Used assessment data and learning analytics to identify skill gaps and measure intervention effectiveness.
 - Collaborated with instructional teams to adapt content, tools, and strategies for improved learner outcomes.
 - Applied differentiated and technology-enhanced instructional approaches to support diverse learning needs.
-

Community Engagement Specialist

Virtual/Remote

Stride: Lone Star Online Academy

- Planned and executed virtual events, trainings, and outreach initiatives to strengthen learner and family engagement.
 - Provided technical and pedagogical support for digital platforms, ensuring accessibility and ease of use.
 - Collected and analyzed engagement data to inform program enhancements and stakeholder communication strategies.
 - Supported faculty and staff in adopting effective online engagement and communication practices.
-

Teacher

Conroe, TX

Conroe ISD

- Designed and delivered instruction aligned to curriculum standards, integrating educational technology and multimedia resources.
 - Applied instructional design principles to create engaging lessons and assessments.
 - Collaborated with colleagues to improve curriculum, instructional strategies, and student outcomes.
 - Used formative and summative data to refine instruction and support learner growth.
-

STEM+C Camp Leader:

Huntsville, TX

Sam Houston State University

- Designed and facilitated hands-on STEM and computing-focused learning experiences for diverse student groups.
- Integrated emerging technologies and project-based learning approaches to promote engagement and problem-solving.
- Collaborated with university staff and educators to align camp activities with learning objectives and best practices.
